

Keith:

The house smells like "feces" really bad. That's all I can smell when I am sleeping at night. It permeates the computer area, bedrooms, hallway and part of basement. Would you please consider saving some money to fix this problem soon. You have known about this for a very long time – for MANY years and you still have not done anything about it because other things are "priority" in your life. This is not healthy for the girls to inhale.

Also, as I have mentioned to you in the past, the duct systems in the girls bedrooms are not working very well. The heat is not working very well in their rooms, it gets very cold.

Would you kindly think about what should be priority in your life. The top priority should be the well being, health and safety of your children. You should also think about the long-term consequences for you and your children with every decision made – personal and professional. I am feeling very unsettled. I feel serious consequences will happen this year. Please be sure every decision made is honorable and good.

Alexis is not taking care of HER cat. She continues to neglect Kit-Kat's needs. I feel the cat should be given to another home if this continues. I was shocked to see the sunroom in the condition it was in when I arrived. There was dry cat feces in one corner and the litter box was completely full of feces. It had not been clean for several days, maybe 2 weeks. The sunroom smelled like feces. There was food spilled all over the place. Also, her room is complete chaos. It STILL is not finished after 6 days of pleading. I received attitude and disrespect from her this morning.

I will continue to help with the business and care for the children. I want them to be safe and surrounded by positive and healthy individuals. But our relationship from now— moving forward will strictly be "platonic". I cannot trust you nor can I trust that women you are conducting business with. I still am not convinced that the email I found dated Sept 06 was strictly "business." I would never email a co-worker OR business partner stating "Thank you so much for last night and this morning!!!" I'm sure that you gave her more than "coffee" in the morning. I am very disappointed in you. I continually catch you in lies. You stated Alexis was there when she slept over. You intentionally stated that knowing that Alexis was here with me in Nashville. I asked Alexis about that and she stated she did not remember "her" sleeping over while she was there.

I'll call you later. I need to put a few things away and get the girls Valentine's Gifts together so they will have them when they come home from school.

my Love.

XOXO
